The sum will be depleted by \$11,000,000 or more dollars a month hence when school fund apportionments have been paid. Director of Finance R. A. Vandegriff announced. Realty Transfers Show Small Gain In 30-Day Month

The volume of real estate transfers last month for the incorporated cities in Los Angeles county was approximately 1% greater than during August, according to

the California Title Insurance Company. On the face of it this would seem to be negligible but for the fact that September was a 30-day month with two legal holidays when no deeds were recorded, as compared with the 31-day August with no holidays. The local realty market showed a gain of 33.13% in volume of realty transfers last month over those for the preceding month. There were 32 deeds and eight trust deeds filed during September affecting local real estate, compared with 23 deeds, one mortgage and four trust deeds for August. Eleven new subdivisions, embracing a total of 131 lots were opened in the county last month. So far this year there have been 86 subdivisions totalling 2273 parcels of land, placed on the market.
